

October: one passage, four arrangements

Score Simplifier v0.3.7 | Tchaikovsky, The Seasons, opening mm.1-16

Start with the melody, keep the left-hand reply.

These versions preserve the timed right-hand line, the left-hand thematic answer in bars 9-14, the original key/meter and the 16-bar route through its D-minor arrival. The accompaniment is progressively thinned or moved by octaves. The original continues after this passage.

What changed

Version	Pitched events	Held span R/L	Held pitches R/L	LH jump max
Original reference	253	12/17	3/4	18.00
L1 Essential	196	0/7	1/2	9.50
L2 Easy Musical	230	9/9	3/3	16.33
L3 Intermediate Reduction	252	12/12	3/4	17.50

Spans/jumps are in semitones. Original metrics use only timed written holds, excluding five graces and roll offsets. Counts include written pitches before tie merging. Quarter=52 is a common comparison assumption. Centroid movement is a proxy, not a fingering model.

L1: one RH line and light support; fewer held tones and much smaller LH reach. L2: more harmony/inner voices with tighter reach. L3: keeps 252 of 253 timed pitched events while reducing LH reach from 17 to 12. Fewer deleted notes can still produce a meaningful reach change.

What remains difficult

Triplets, chromatic reading, two-hand voicing and some melodic octave jumps remain. RH peak movement stays 12 semitones in all three reductions. They omit five graces and flatten two rolled chords; these are declared expressive losses. Source fingering and pedal are not reproduced.

Evidence and limits

All four canonical XML files pass schema checks; every final score page was viewed by the agent. L1/L2/L3 pass timeline, held-span/count, hand-conflict and serialized MIDI checks, but remain REVIEW_REQUIRED. Original retains grace/roll notation and is INCOMPLETE for internal playback verification; its MuseScore MIDI is an unverified listening aid. Human musical/listening/playing acceptance and grade calibration: NOT_RUN.
